Research Experience

McMahon Lab – University of Wisconsin – Madison

Jan. 2017 - present

Graduate research assistant in the laboratory of Dr. Katherine McMahon investigating bacterial communities of engineered wastewater systems. I use a combination of bioinformatics approaches and enrichment culture techniques to probe the diversity, functional activity and population dynamics of microorganisms that perform biological nutrient removal and interrogate microbial interactions.

Lewis Lab – University of Arkansas – Fayetteville

Aug. 2013-Aug. 2016

Undergraduate research assistant in the laboratory of Dr. Jeffrey Lewis studying the natural variation of stress defense mechanisms in the budding yeast *Saccharomyces cerevisiae*.

Broach Lab – Penn State Hershey College of Medicine

May-Aug. 2014

Intern in the Summer Undergraduate Research Internship Program in the laboratory of Dr. James Broach studying the interactions and movements of chromosomes during quiescence in the budding yeast *S. cerevisiae*.
